

TRANSNATIONAL ACCESS PROGRAMME

SCIENCE — Symbolic Computation Infrastructure for Europe

Research Institute for Symbolic Computation
Johannes Kepler University Linz
Austria

<http://www.risc.uni-linz.ac.at/projects/science/access/>

Goals: RISC-Linz within the project SCIENCE offers opportunities to obtain access to its infrastructure and facilities. Within this programme the users can

- visit RISC for several weeks, work with and get an advice from the members of the institute on applications of symbolic computation in users work,
- get remote access to the computing infrastructure and facilities of the institute.

Applications can be submitted any time. For successful applicants, access is free of charge. RISC provides scientific, technical, logistic, and administrative support, including travel and living expenses.

Targeted Audience: Students and researchers who are interested in using symbolic computation in their work.

Selection Panel: Bruno Buchberger, Arjeh M. Cohen, Marc Giusti, Steve Linton, Peter Paule, Franz Winkler (Chair)

Scientific Adviser: Temur Kutsia

Supported by the European Commission Framework 6 Programme for Integrated Infrastructures Initiatives under the project SCIENCE
